Amir – they are asking what version of CCS you are using? Can you let me know? That might be the problem.

Amir,
My TI support engineer is out until Friday, 22July.
If you could provide a description of your issue I will work on getting support.

Subject: C668 EVM

Bruce,

I have some problems connecting to the new EVM board. Is there someone that I can talk to?

Thanks,

Amir
