

HDC1080 I2C Waveform

Ch1(Yellow)=SDA, Ch2(Green)=SCL,

Ch4(Light Blue)=Timing signal for 0xFFh data waveform getting.

1. Stop condition just before 20ms wait time start timing

2. Data_read_command_data_after_20ms waiting time(Whole)

3. Stop condition just before 40ms wait time start timing

4. Data_read_command_data_after_40ms waiting time(Whole)

EOF.
