

Available authorizations

3

Scopes are used to grant an application different levels of access to data on behalf of the end user.

Each API may declare one or more scopes.

API requires the following scopes. Select which ones you want to grant to Swagger UI.

OAuth2 (OAuth2, clientCredentials)

This API uses OAuth 2 with the Client Credentials: <https://api-portal.ti.com/backlog-api-authentication>

Token URL: <https://transact.ti.com/v1/oauth>

Flow: `clientCredentials`

client_id:

client_secret:

Auth Error Error: Unauthorized, error: invalid_client, description:
client_id or client_secret are not correct
