

No.	Qualification items	Feedback or attachment
1	Device ordering part number	RTM: SN1812796IABJ Pre-RTM: PSN1812796IABJ
2	Please attach the Datasheet/ Specification. And please confirm whether it's the latest version?	Can't provide through this survey.
3	Please provide picture of marking on the device and the Pin 1 point	 <pre> /-----+ ! O \T/ ! O = PIN 1 ! SN1812796 ! \T/ = TI LOGO (Centered) ! ! YM = YEAR MONTH DATE CODE ! ! Z = SECONDARY CODE FOR AMKOR ! ! LLL = ASSEMBLY LOT CODE ! ! S = PRIMARY CODE FOR ANA ! YM2LL9 G1 ! ! ! LINE 3 MAX - 17 CHARACTE ! ! LINE 4 MAX - 17 CHARACTE +-----+ </pre>
4	Is it the latest new version in use this moment? Please list the latest version of the device	RTM: SN1812796IABJ Pre-RTM: PSN1812796IABJ
5	What is the device status(engineering sample, small- lot or mass production)? Please provide the sample part number and production part number if the device don't go into mass production.	engineering sample Pre-RTM: PSN1812796IABJ
6	What's the date of mass production or when does it plan to start mass production(year/month)?	2019,Dec
7	What is the estimated life cycle for this device? What is the time of estimated EOL?	No EOL plan this moment
8	Does this device follow your company's device development roadmap? Please attach the device's technology development roadmap.	Yes. Road map can't provide through Survey

9	Please confirm the life cycle of the device.(Introduction/growth/maturity/saturation/decline/phase-out)	Introduction
11	Is it a customized/ screened nonstandard part? If yes, what's the risk?	No
12	What is the wafer process(for example:0.13um COMS)? Is it mature?	C28 nm
13	Does it use new technology/ process? If yes, what's the risk?	Confidential information, Can't provide
14	What's the MSL (Moisture Sensitivity Level) for this part?	MSL 3
15	what's the net weight of single device (g)?	2.05g
16	What's the max height of the device (mm)?	3.02mm
17	Is it complied with ROHS and REACH?(If no, please describe the details of non-compliance. If it's RoHS exemption, please list the exemption items. For example: it's refer to RoHS exemption 7(b))	Yes
18	Does it comply with Pb-Free soldering process?	Yes

19	Is it halogen free?	Yes
20	if it is ESD sensitive device, what is the ESD protection voltage?(please list the Minimum CDM ESD & Minimum HBM ESD voltage)	Refer to qual report once available.
21	Please provide the reliability and qualification test report.if the report is not available now, please share the qualification schedule with us	Provide the report once device go to RTM
22	How about the failure rate (FIT) of the device?	Refer to Anupam
23	Is there any Bug on the device? If yes, please list the solution.	Did not find this moment
24	What is the market share of this device? How about the leading position of the market? (a.leading position/b.middle position/c.in the end)	Leading position
25	Which kind of customer is using this device ? á. big telecom customers /b. middle or small telecom customers/C. no telecommunication customer/ d.only Huawei use.)	Confidential information
26	Do you have the IP (Intellectual Property) and associated license for using this device?	YES
