

Extracting new Tina macromodels

Tip!

- Go to model webpage on TI website
- Page down to *Simulation models, Spice model*
- Double click on *zip*
- Select *open*
- Right click on the model file *model#.tsm* (ex. opa211.tsm)
- Click on *Extract*
- Select path to Tina folder where you'll store the macromodel
- Click on *Extract*
- Repeat process for the model test circuit file *model#.TSC* (ex. opa211.TSC)
