

Schematic:

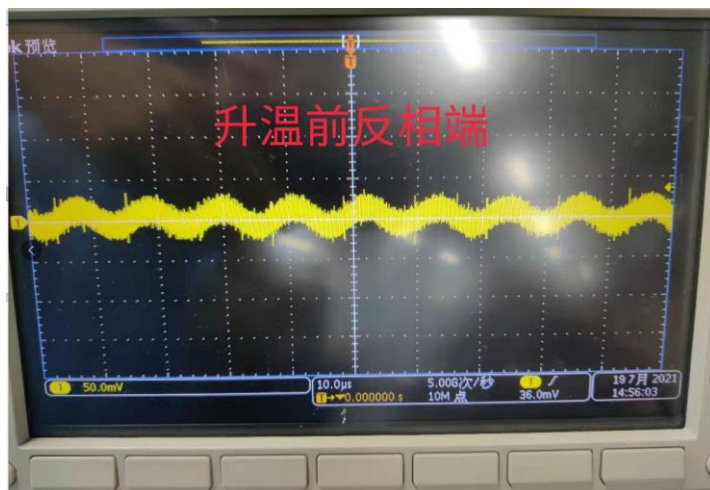

1. Waveforms @ $T_a=25^\circ\text{C}$

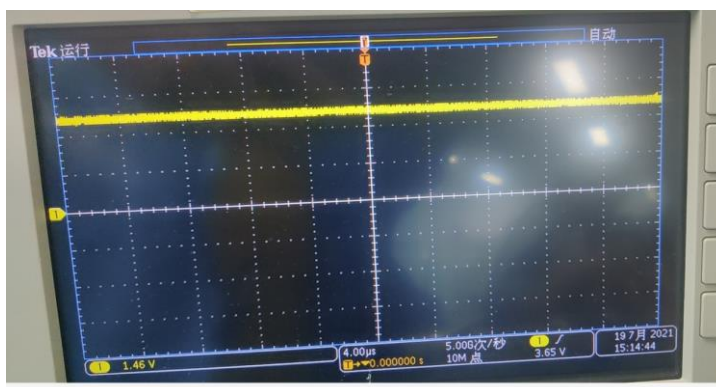

Non inverting input(zero level is in the middle of screen):

Inverting input(zero level is in the middle of screen):

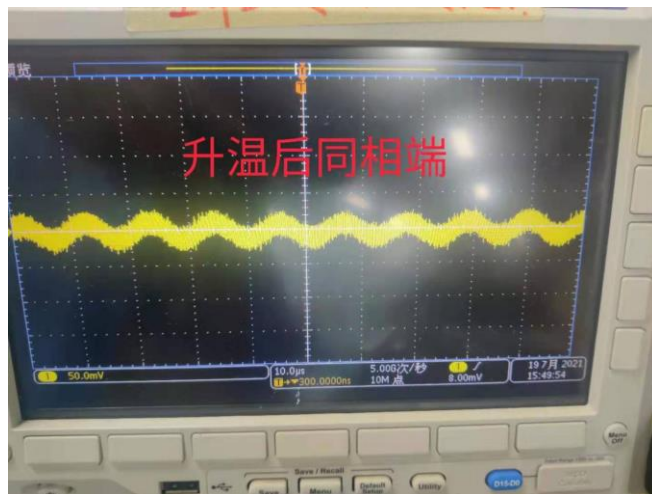

Output:

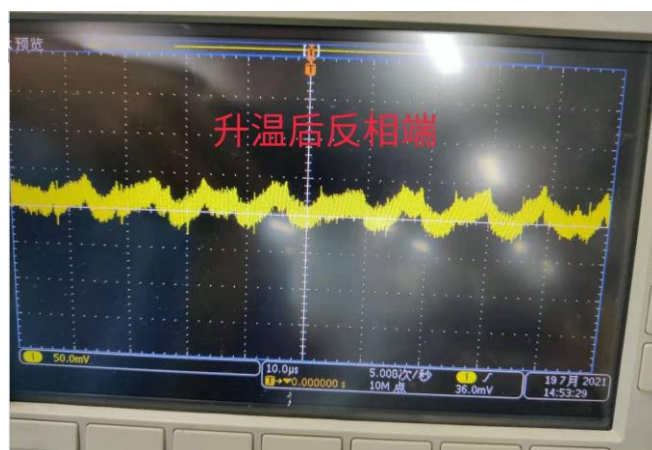

2. Waveforms @ $T_a=65^\circ\text{C}$

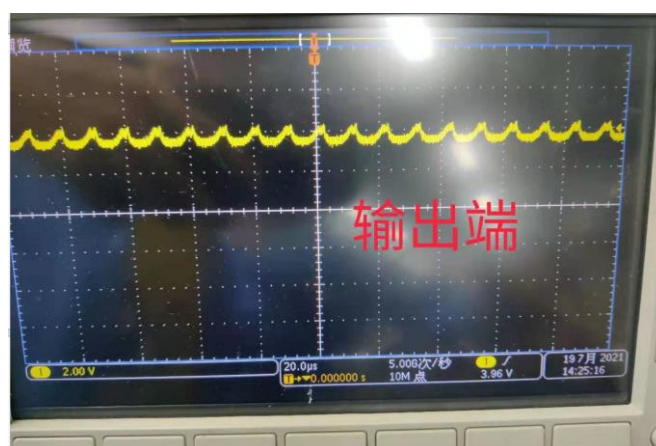

Non inverting input(zero level is in the middle of screen):

Inverting input(zero level is in the middle of screen):

Output:

Output when TA increase to 80C:
