Scan from Blueterm:

Windows 10:

After compiling Service Pack 1.6 and replacing file CC256XB.h :

http://processors.wiki.ti.com/index.php/CC256x_Downloads

„ Thank you for the correct link. I have downloaded the Wireless Tools Package.

I used BTSTransform to convert initscripts-TIInit_6.7.16_bt_spec_4.1.bts file into CC256X.h file.

I then replaced the original CC256X.h file under Bluetopia/btspvend with this newly created file.”
