

1. PTH12060 and PTH120x0 open/ floating Auto track during power up
2. PTH12060 and PTH120x0 Autotrack connected to Vin . Auto track defeated.

**1. Open Auto track** Normal power-up PTH12xxx at 3.3V with open Auto Track( A/T) A/T and or Not connected to Vin or controlled by another voltage source

**2. Auto track connected to Vin** Normal soft Vout controlled by soft start up circuitry. Linear Vout

CH#1 Vin 12V  
CH#2 Vout 3.3V
