Public Share of design will save this design to your My Designs list and make a copy of the design to create a link to it. You are responsible to distribute this link to the person you want to have the design. Anyone who has access to the link can click on it and can copy your design to their WEBENCH workspace. The copied designs are independent and any changes made are not reflected on other copies or the original design. If you make changes to your design, you can create another Shared Link and distribute that link.

Suggested Uses

- Share via email lists to a large group of people
- Share on internet forums
- Share for training or demo purposes
- Share where confidentiality is not a concern
