DISCONTINUANCE TYPE

Scheduled Quarterly Notification

LIFE TIME BUY

LTB Date: Nov 16, 2008

Last Time Ship Date: Feb 16, 2009

DESCRIPTION OF DISCONTINUATION

National Semiconductor wishes to advise you that we must discontinue, and cease to take orders for, the devices listed in Attachment B. If our records indicate that you have either purchased or have submitted specifications for review toward technical compliance for any of these devices, these will be listed together with your customer part number in Attachment A.

The guidelines established by the National Semiconductor Corporation for discontinuing products entail the same safeguards for sole source and multi-source products. To facilitate your transition, we have included, where feasible, a corresponding list of compatible devices offered by National Semiconductor, or other suppliers in the semiconductor industry.

We thank you for your attention to this matter.

DISCONTINUED PRODUCTS:

Multiple devices, from a number of product families, are affected by this discontinuance notification. See listing of affected devices below.

RECOMMENDED ACTION:

We recommend that your final orders be placed in a timely manner. If you anticipate a need over and above your normal run rate, whether it would be now, or near the end of the lifetime buy cycle, please provide your National sales representative with a forecast to better ensure availability of the product.

Your company will have 12 months to place end-of-life orders. Final orders will be shipped within 3 months of receipt of the last order. To assure that your device needs are met during the end-of-life period, some date codes may be more than twelve months from the ship date.

For devices listed in this letter, your final order should be placed no later than Nov 16, 2008 with a final ship date of Feb 16, 2009.
