Request for simulation
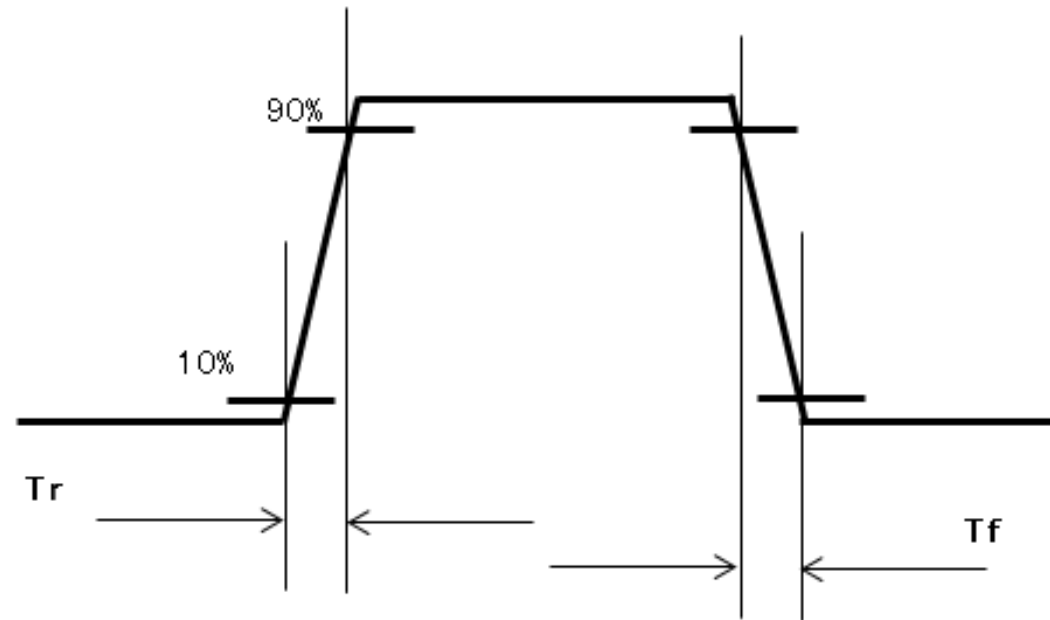

< Simulation condition>

●Load condition:335pF/10kΩ

Output waveform

Request for simulation

Q1. Can Tr be driven from 10% to 90% within 1.5 µs?

Q2. Can Tf be driven from 90% to 10% within 1.5 µs as well?

Q3. Could you please send me simulation result ?

Tr value = ? (simulation result)
Tf value = ? (simulation result)
