

Figure 12. Efficiency vs. Output Current

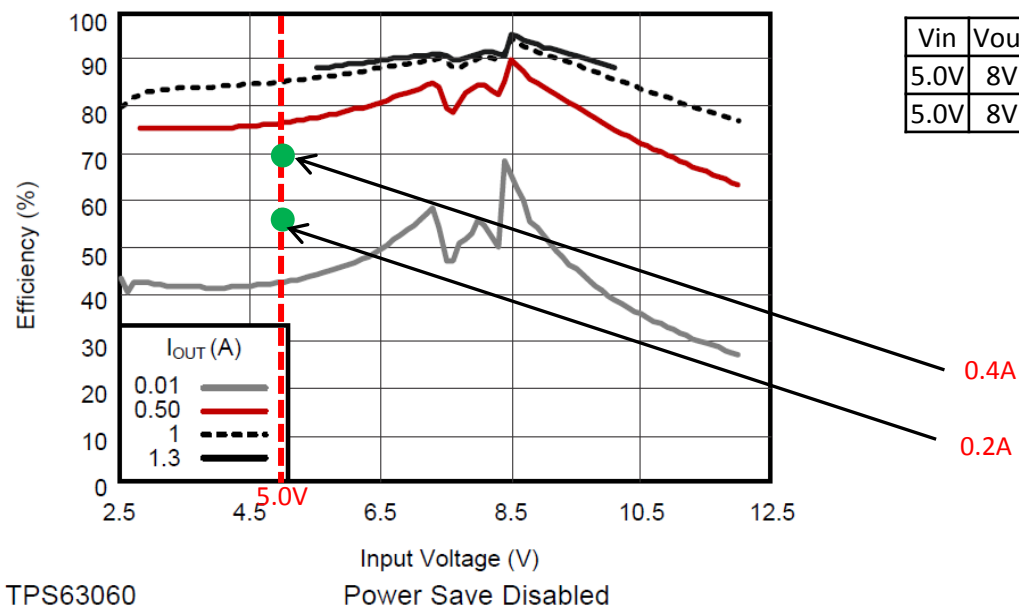

Figure 18. Efficiency vs. Input Voltage

Vin	Vout	Iout	efficiency
4.8V	8V	200mA	89%
4.8V	8V	400mA	87%

Efficiency measurement conditions are the same degree.
However,
Fig 12 data is totally different from Fig 18 data.

Vin	Vout	Iout	efficiency
5.0V	8V	200mA	58%
5.0V	8V	400mA	70%
