

UCC24612 Waveform: Voltage between VD (5 pins) and VS (2 pins)

Measurement condition

- TI-EVM:UCC28780EVM-002
- C3=220p、R3=56Ω

question

- The absolute maximum rating of the VD pin is -0.7 V. When measured, the value will be -1.2 V or more. Will this be okay?
- In case of NG, please tell me the measure.
