

POWER SUPPLY OR-ing & LOAD SHARING

UCC39002/UCC29002 Advanced 8-Pin Load-Share Controller

DESIGN NOTE:
UCC29002 has better temperature operating range than UCC39002.
UCC29002/1 Load sharing is established more slowly than UCC29002

DESIGN NOTE:
RDSon is used as SHUNT for UCC39002

DESIGN NOTE:
KELVIN connections required for sensing circuitry

TPS2412 N+1 (Paralleling) Power Rail Controller
