

Custom PCB Waveform Information 1

Register initial value setting (1000mA, 2000mA)

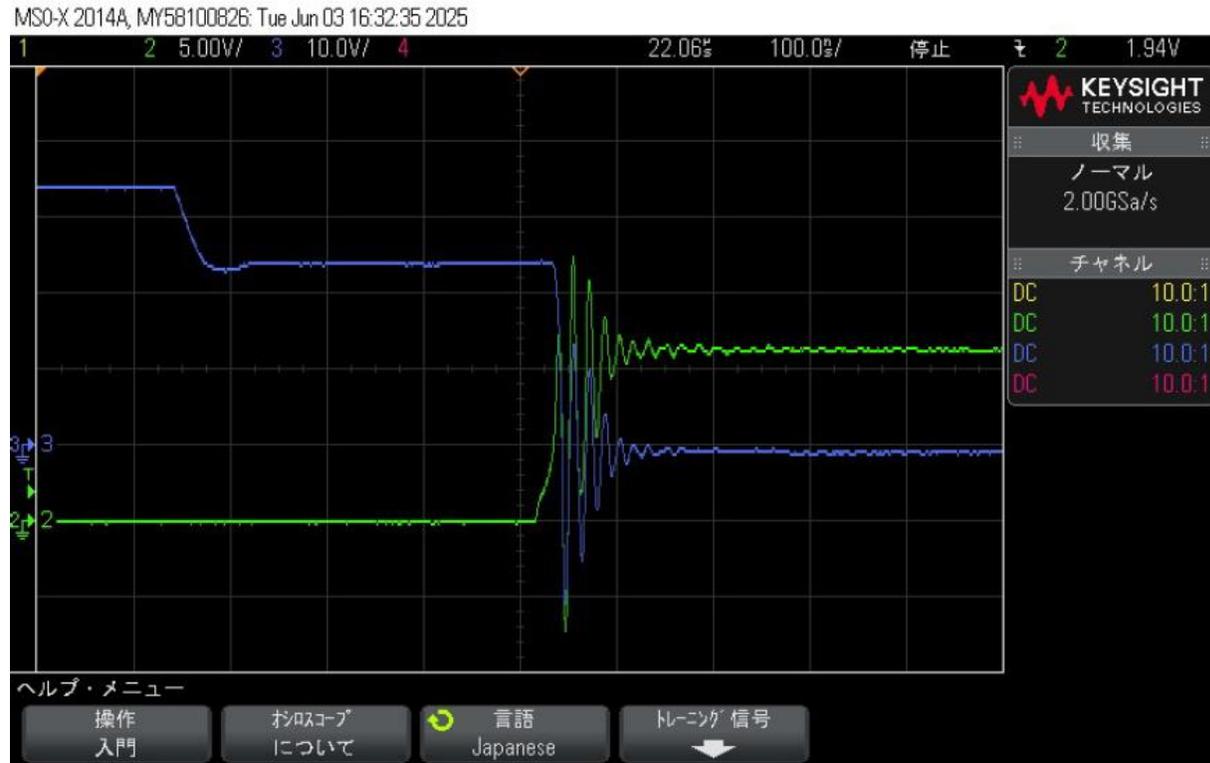

Register setting value change (100mA, 200mA)

CH2: Motor U-phase FET Gate terminal low side
CH3: Motor U-phase FET Gate terminal high side

Custom PCB Waveform Information 2

Register initial value setting (1000mA, 2000mA)

Register setting value change (100mA, 200mA)

CH2: Motor U-phase FET Gate terminal low side

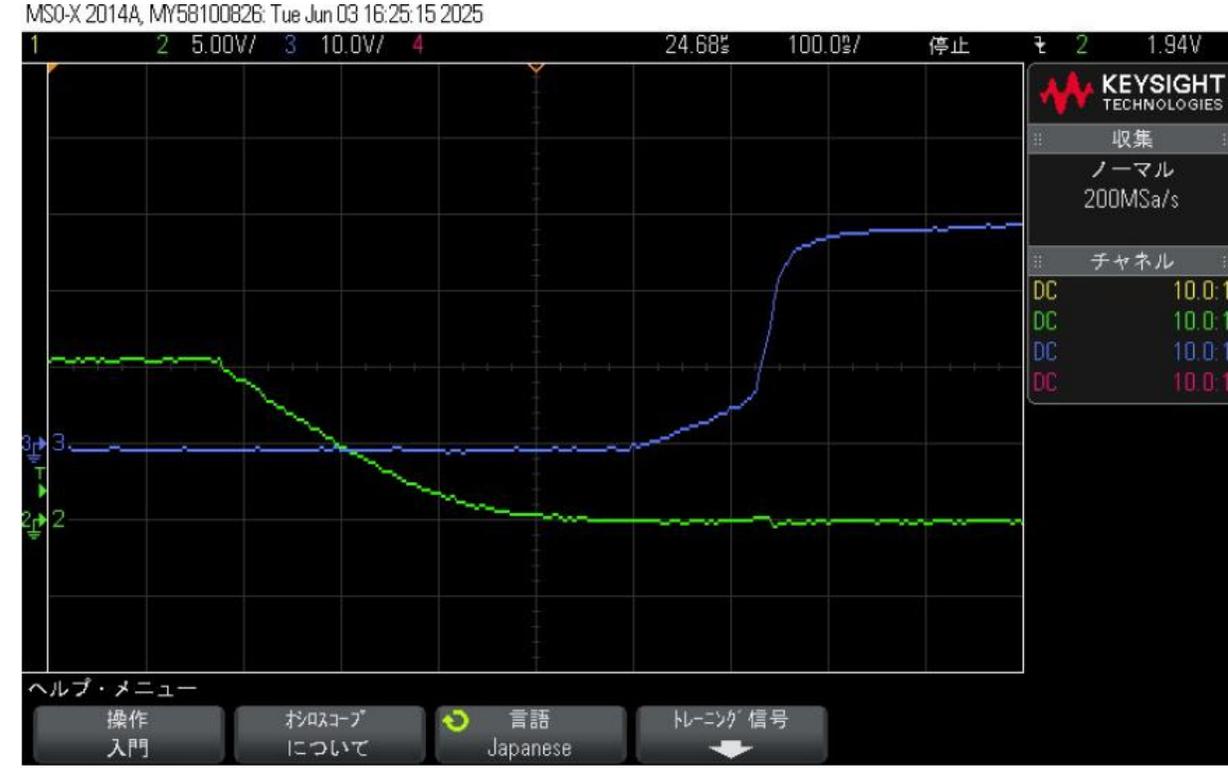

CH3: Motor U-phase FET Gate terminal high side

Custom PCB Waveform Information3

Register initial value setting (1000mA, 2000mA)

Register setting value change (100mA, 200mA)

CH2: Motor U-phase FET Gate terminal low side
CH3: Motor U-phase FET Gate terminal high side
