

Persistent Organics Pollutants (POPs) Statement Texas Instruments Semiconductor Products

Texas Instruments (TI) does not use any Persistent Organics Pollutants (POPs) substance Listed in Annex A, B or C of the United Nations Environment Program (UNEP) Stockholm Convention to manufacture Integrated Circuit (IC's). This information represents TI's knowledge and belief as of the date that it is provided.

TI bases its material content knowledge on information provided by third parties and has taken and continues to take commercially reasonable steps to provide representative and accurate information, but may not have conducted destructive testing or chemical analysis on incoming materials and chemicals.

TI and TI suppliers consider certain information to be proprietary, and thus CAS numbers and other limited information may not be available for release. TI provides an exclusive warranty for certain material content representations in the Material Declaration Certificate for Semiconductor Products, which can be found at <http://www.ti.com/productcontent>. All other material content information is provided "as is."

Sincerely,

Mark Frimann
TI SC Product Stewardship Management
