

TPA613x Interface.vi

The screenshot shows the TPA613x Interface.vi software interface. It features a Gain slider set to -12.3 dB and a Software Shutdown button. The Mode section includes checkboxes for Enable Left and Enable Right, and radio buttons for Stereo Headphone, Mono Headphone, and Bridge-tied Load. A Thermal Shutdown indicator is shown as a green light. The Slave Address is set to C0, and the I2C Status is shown as a red light. The interface also includes buttons for Read, Poll, and Fade, and a display for the Slave Address (C0).
