

PowerUp Current

DVDD18

Probe

| Probe CH | Color   | Signal Nave    | Measurement Point | Description                  |
|----------|---------|----------------|-------------------|------------------------------|
| 1        | Blue    | DVDD33 Voltage | J39 - 2           | +3.3V                        |
| 2        | SkyBlue | DVDD18 Voltage | J42 - 2           | +1.8V                        |
| 4        | Green   | DVDD18 Current | J42 - 1~J42 - 2   | Remove R381<br>Current Probe |

|               |          |             |
|---------------|----------|-------------|
| Oscilloscope  | MD04104B | (Tektronix) |
| Passive Probe | TPP1000  | (Tektronix) |
| Current Probe | 3276     | (Hioki)     |

|              |             |
|--------------|-------------|
| Target Board | EVMK2G      |
|              | Remove R381 |

SD Boot

CLK\_SEL = Low

※ Same for CLK\_SEL=High
