

請幫忙提供系統化說明關於用燒錄器離線燒錄 IC 的文件:

1. 離線燒錄 IC 時用到的接線圖及其用法說明 (I/O pin, POWER pin, CLK pin ...)
2. 燒錄時的 AC/DC 電氣規格, Timing
3. 進入燒錄模式流程, 時序
4. 各項燒錄功能 (Erase, Program, Read, Protect...) 的流程, 時序
5. IC 需要燒錄的 memory map, Option, Config ... 等等
6. 簡單的燒錄範例程式

1. The connecting diagram and instruction for the programming, included I/O pin, POWER pin, CLK pin.
2. AC/DC electrical specifications and timing for programming.
3. How to enter the programming mode process and the timing.
4. The flow and the timing for the function of Erase, Program, Read, and Protect.
5. The memory map, Option and Config for the programming.
6. The simple program for the programming.
